

HE COULDN'T LOSE 'EM

LOST POSTMAN was found by his admiring canine friend, Postman A. B. C. D. Smith, Vancouver, followed the same route on his mail deliveries for years and became a staunch friend of several dogs. Then the post office changed his route. But in a short time the dogs had found him again.

Alleged Spies to Appear Before U.S. Grand Jury

NEW YORK, March 7.—(BUP)—Federal attorneys called for Grand Jury indictments today against Judith Coplon, 27-year-old Justice Department employee, and Valentine Gubichev, 32, the Russian engineer arrested with her on charges of stealing government secrets.

Raymond P. Wensley, special assistant to the Attorney General, was scheduled to present the government's case to the Grand Jury and was expected to call both Miss Coplon and Gubichev as witnesses.

The girl, an attractive graduate of Barnard College who could still pass as a coed, may be released today, her attorneys indicated, if her \$20,000 bail can be raised.

\$100,000 BAIL

But Gubichev, an employee of the United Nations, still was being held in \$100,000 bail and did not even have an attorney. The Russian had been early yesterday by three officers, said, tried unsuccessfully to break out of the hands of the officers.

Miss Coplon, a Russian expert in the Justice Department's Foreign Assets Registration section, was seized in company with Gubichev Friday night on a Third Avenue bus after being trailed from Washington by FBI agents.

In her handbag was found a package of "planted" documents relating to security which she allegedly intended to turn over to the Russian.

Justice department sources indicated that the girl has refused to see "Alleged Spies."

Lynching Try Is Failure

OPPEL, La., March 7.—(AP)—A 20-year-old negro was taken today from the St. Landry parish jail here early yesterday by three unidentified armed white men who, officers said, tried unsuccessfully to lynch him.

Sheriff Clayton Gilbreath said the prisoner, Edward Hunter, was driven about 20 miles west of Opelousas where he was taken by his captors while they were "making a coin to see who would kill."

The negro was found at daylight and taken to jail at Baton Rouge for safekeeping.

District attorney J. Y. Fontenot said the negro had been held for the last four months on a charge of "carrying a gun in connection with an attack on a married white woman."

Lonely Life Drives Man To Suicide

NIAGARA FALLS, N.Y., March 7.—(BUP)—Riversmen searched today for the body of an elderly watchmaker who plunged over Niagara Falls because he has been lonely since the death of his wife.

Reinold Price, 70, the only witness, said the man, Isaac Harris, 62, of Buffalo, N.Y., stood on the bank of the Niagara River for some time yesterday, then removed his overcoat, hat and glasses and waded out into the water.

The current swept him over the falls before the boy could summon help.

In a pocket of the overcoat, police found Harris had scribbled his name and address on a piece of newspaper. They contacted his daughter, Rebeca Brock, 28, who had been disconsolate since the death of his wife, Minnie, two years ago.

Justice department sources indicated that the girl has refused to see "Alleged Spies."

Quarantine Area May Be Widened

WINNIPEG, March 7.—(CP)—Extension of the quarantine already covering 40,000 square miles of the Canadian Arctic was under consideration today following confirmation of reports that the death-dealing plague sweeping the northwest coast of Hudson Bay is poliomylitis.

Confirmation of the diagnosis came early today from Dr. W. W. Winnie, Winnipeg, regional superintendent of Indian health services, following his return here aboard the SCSA Dakota which also brought 13 stricken Eskimos to a hospital here from the sled-dog support at Chesterfield Inlet, 1,000 miles north.

The mercy flight was completed approximately 12 hours ahead of schedule as the ski-equipped aircraft roared through blustery northern skies ahead of a March blizzard howling down on the lake from the polar regions.

The Eskimos found in Winnipeg—11 stretcher cases—were among the most seriously affected by the epidemic which, since outbreak three weeks ago, claimed 12 lives and brought illness in varying degrees to 80 persons.

Dr. Wood, who headed a five-man medical team which flew in to assist the resident physician, Dr. P. Moody, in combating the plague, said the Ottawa's advice had been requested concerning possible extension of the quarantine area.

UNIQUE IN NORTH

Quarantine was one of the most effective ways of limiting spread of the disease, he said, adding that the first of its kind in the north was the first time record poliomylitis had been known to occur as far north as Chesterfield Inlet, a dozen or so by buildings are clustered in a snow-bound, treacherous 25 miles south of the Arctic circle.

Dr. Wood disclosed that the disease was not confined to the Eskimo population. But the few whites displaying any symptoms of the virus had done so in negligible degree.

Fire Guts College

FARMVILLE, Va., March 7.—(AP)—An early morning fire gutted the auditorium building of the State Teachers College here yesterday. Dean William W. Savage estimated damage at \$300,000.

Pilot Chops Plane's Floor To Fix Wheels

BEDFORD, Mass., March 7.—(AP)—A United States Air Force captain Saturday night chopped through the cockpit floor of a training bomber to fix a disabled landing gear so the plane could land safely with only a few minutes gas-oil left.

His hands cut and bleeding, Capt. Francis G. McLaughlin hacked his way through the floor with an emergency axe, a screwdriver, and a hammer to reach the balky mechanism.

As Capt. McLaughlin worked against time to repair the faulty gear, Lieut. J. E. Whitley circled the field.

Bullet Kills Ailing Man

When Mrs. James Patterson, of 111 Avenue and 143 Street, returned indoors yesterday morning from feeding the chickens, she found her husband lying on the floor with a bullet wound in his forehead.

Shortly afterward, the man, Alfred Halksworth, was found with his father at 304-101 Avenue, died on an operating table in a city hospital.

According to police reports the 42-year-old man was conversing with his sister, who had been released from hospital only a few days previously.

During breakfast he had complained of stomach trouble, and said he felt like shooting himself, his sister told police.

When police arrived they found him lying on the kitchen floor. In the next room was a 22 calibre single-shot rifle, with one empty cartridge in the chamber.

Dr. M. C. Cantor, chief coroner for Alberta, said today there would be no inquest.

Flier Ahead Of Schedule

HONOLULU, March 7.—(BUP)—William P. Odum today passed a successful ship maintenance inspection and is scheduled to fly to Honolulu from Honolulu to New York.

The weather ship, 1,200 miles from Oahu, reported Odum's small, single-engine monoplane, passed within three miles at 4:30 a.m. HST (7:30 a.m. MST). He took off in the "Waikiki Beech" at 7:04 p.m. HST.

Shortly before reaching the island, a U.S. air force B-17, turned back for Honolulu. Odum will be alone until Coast Guard B-17 meets him 600 miles off the California coast.

As the air force plane turned around, Odum messaged: "I hope I'll make it this time."

He was slightly ahead of schedule, leaving at 12:00 a.m. hour.

Five Meat Death In USAF Trainer

HILL, FIELD, Utah, March 7.—(AP)—Five prize were killed Saturday in the crash of a United States Air Force trainer plane against a mountain side on a narrow peninsula extending southward into Great Salt Lake.

SCRATCHES

Clear and Fast. Post Noon. FIRST—Grand Prix, Navy Flash, By Book, Glison.

SECOND—Conservator, Invicta, Andromeda, The Prophet, Patch Party.

THIRD—Tatzenator, Marian Ann, Bonnet Red, Bernal Park.

FOURTH—Vansant, First Girl, Imperial, Reador.

FIFTH—Hot and High, Gregg, Lady, D'Amour.

SIXTH—Della, Field Drive, Dream Champ, Bold Byrd, Iron Way, Whirlwind.

New Golden Spike Field 131' Thick

Depth Now Almost Double That Of Strata at Leduc

The new Golden Spike oil field southwest of Edmonton continued to hold the main interest in Alberta's vast oil exploration program during the week-end.

Known thickness of the oil zone in the field, now being probed by Imperial Oil Company's Schoep No. 1 well, was increased by 20 feet during the week-end.

The oil layer is known to be 131 feet in depth—almost double the depth in the Leduc field and with a few feet of the rich Redwater field.

Company officials said latest reports from the well situated about 18 miles southwest of Edmonton showed five miles northwest of the Woodhead field, showed drilling continuing at the 5,400-foot level below the surface with no sign of the bottom of the oil-bearing strata having been reached.

Although the new field, named after a nearby post office, is known to have a deeper oil pool than Leduc, extent of the field is not known. Area of the field can only be determined by drilling new wells to discover the field's boundaries. At present Imperial Schoep No. 1 is the only well there.

Return to Lower Transit Fares Demanded at Meet

Julia Kinkaid and William Chmiller will act with Mr. Hancock and Mr. Sheehan on the steering committee.

Chairman of the meeting, Mr. Hancock, said the following are the main points of the steering committee's plan:

1. Return of lower fares, setting aside a day for the boycott of the transit system, holding further mass meetings to represent the meeting in its request for a return to the lower fares.

SEEK SUPPORT

Steering committee was also appointed, to approach community leagues and make the voice of the people felt with regard to the fare increase. Joseph Ferguson, Mrs.

Chmiller and William Chmiller will act with Mr. Hancock and Mr. Sheehan on the steering committee.

Chairman of the meeting, Mr. Hancock, said the following are the main points of the steering committee's plan:

1. Return of lower fares, setting aside a day for the boycott of the transit system, holding further mass meetings to represent the meeting in its request for a return to the lower fares.

2. Return of lower fares, setting aside a day for the boycott of the transit system, holding further mass meetings to represent the meeting in its request for a return to the lower fares.

8. Return of lower fares, setting aside a day for the boycott of the transit system, holding further mass meetings to represent the meeting in its request for a return to the lower fares.

9. Return of lower fares, setting aside a day for the boycott of the transit system, holding further mass meetings to represent the meeting in its request for a return to the lower fares.

Hundreds Flee Raging Waters

CHICAGO, March 7.—(BUP)—Noten river for broke up and began surging down a 100-mile stretch of the swollen Missouri yesterday, and hundreds of lowland residents fled their homes.

An overnight chill slowed flooding in some other areas of the mid-west, but the rampaging Missouri roared to record-high levels at several points.

PREDICTIONS IMPOSSIBLE

Weather forecasters said it was virtually impossible to predict what the "Big Muddy" will do as it breaks in the vicinity of Ashburn, Kan., and the treacherous stream began moving rapidly.

Rampaging ice-filled waters in five mid-western states have driven thousands of families from their homes.

Missouri, Kansas, Illinois, Iowa, and Wisconsin have been hit by floods pouring down from mountains as the result of an early thaw.

A huge, 100-mile jam on the Missouri river has backed up high waters sending floods into East Atchison, Kansas.

Police report that people are being removed from Atchison and parts of St. Joseph and Milledale, Mo.

More than 1,000 persons left their homes near Missouri Valley, Iowa, and at least one person has been drowned.

Weather forecasters at Kansas City have warned residents to clear out of the Missouri river lowlands, 12 feet flood seen.

River forecasters predict the crest will level off some 12 feet above flood stage. As low jays began to move on the Big Muddy below Atchison, Kansas, flood waters farther upstream already had fanned out across thousands of acres of farmland at levels from six inches to several feet. The most critical points for the time being are at Halls and Rushville, Missouri.

Cool Weather To Be Only Temporary

Edmonton's glorious preview of spring has ended for the time being.

Colder weather, with intermittent snow and northwest winds at 20 mph, are in prospect today, the weatherman said.

"The darker weather cloud has a silver lining, however."

"We do not expect the cool spell to last long," the weatherman said.

Snow started to fall shortly after 9 a.m. and the high temperature for the day of 28 above had already been registered at 8:30. There will be a drop to 18 above by noon.

"Cold air is moving in from the north this morning and will cover all of Alberta by tomorrow evening."

Change to lower temperatures with snow today followed a near-normal Sunday when the mercury rose to 35 above at 3:30 p.m. Low yesterday was 32 at 5 a.m.

One year ago in the same date it was seven above and two below zero.

Forecasted spot in Alberta yesterday was Medicine Hat with 60 above. It was 58 above at Rocky Mountain House.

Snow, in the Yukon, holding the record for the coldest record, reported four below zero yesterday.

SEE MISMANAGEMENT

The meeting felt that it was mismanagement and not a general higher cost-of-living trend that was responsible for the fare increase, and that if something definite was not done a further increase would be forthcoming in the future.

William Chmiller was secretary of the meeting.

PLANNING TO MAKE the voice of the people heard with regard to the increase in transit fares are members of a steering committee appointed at a Sunday night protest meeting, William Chmiller, F. H. Hancock, and Thomas Mehan look for a practical, efficient, economical transit system, operated on a business basis.

Big 3 to Confer On German Future

Foreign Ministers To Talk Soviet Cabinet Shake-up

By R. H. Shackford

LONDON, March 7.—(BUP)—Foreign ministers of Britain, France and the United States will meet within a month to confer on the Soviet cabinet shake-up and plans for western Germany, informed sources said today.

The meeting will be held in London and will be attended by the foreign ministers of the U.S., Canada, Norway and the Western Union countries. The meeting will be held in London and will be attended by the foreign ministers of the U.S., Canada, Norway and the Western Union countries.

The agenda will include two major items: 1. A complete survey of the cold war and its impact on the world. 2. Western plans for western Germany. This will include a discussion of the proposed Ruhr statute and the proposed constitution for the western part of Germany.

Political observers meanwhile believed that the Soviet cabinet shake-up probably meant, among other things, that Premier Joseph Stalin would be succeeded by a member of the Politburo members rather than by an individual.

Stalin holds the three most important posts in the Soviet union—premier and head of the government, and secretary-general of the Communist party.

Speculation on a possible triumvirate was that Molotov might take over as premier of the Soviet government. G. M. Malenkov, next to Stalin in party affairs, might take over as party secretary general.

Atomic Age

World's most extensive calendar has been established by the University of Chicago scientist, made sweeping condemnation in the legislature of CCF government budget policies. He charged this year's \$20,000,000 budget showed "lack of economy and attention to the spending of the public money."

People

John Dielenbach, Saskatchewan Progressive Conservative MP, a more formidable opposition leader than George Drew, was elected as the Liberal House of Commons member. Liberals would have been a "little more uneasy" in their minds if the Saskatchewan man had won the leadership last fall, Mr. Reid admitted in Commons.

America's popular depression and wartime leader, the late President Roosevelt, believed a railroad through British Columbia is Alaska for year-round service was feasible, Senator Warren Magnuson revealed in Washington. He based his claim on an old report edited by the late president.

Canada's Liberal government drew a back-handed compliment from veteran Conservative of the British Columbia legislature, Herbert Garbutt. Present government is "doing far better than when the Tories were in power," he said.

Labor

Some wildcat printers' strike at Bureau Alaska newspapers ended today, but fresh trouble is in store for some publishers. Government is planning a decree cutting the size of newspaper strikes further.

World

Israel's "Six" at Lake Success, United Nations Security Council recommended the new state for membership in the UN.

United Nations plans have the "new hold look." The world group started the ball rolling on a broad plan of economic and technical assistance to the underdeveloped countries, inspired by a Truman-aided "hold new program."

Crime

Carl E. Bolton, former minor official of United Automobile Workers CIO union, is due in Detroit Monday to face charges of a pay-off to attempt murder of union president, Walter R. Reuther. Bolton was arrested five months ago after he was testified he offered them \$15,000 to kill Reuther.

Miscellany

Vancouver traffic officers were visibly shaken when they approached a speeder who knocked down a 67-year-old pedestrian, sending her to hospital with a broken wrist and torn ligament. The "speeder," who cannot be charged with dangerous driving, was a six-year-old child.

Increased Allowances Asked for Veterans

OTTAWA, March 7.—(CP)—The Canadian Legion has renewed its fight for increased allowances for aged and indigent war veterans and their dependents.

The Legion Thursday told the House of Commons that it had a brief it presented to members of the cabinet Friday night, calling for increasing monthly pensions by \$10 for single men and \$15 for married men. These now are \$40 and \$70.

Other requests in the brief: 1. That veterans' allowances be extended to include immediate veterans who served in the First World War and other wars and have resided in Canada for 10 years.

2. That adjustments be made in the pension of Canadian veterans who served in British forces, to bring them up to the level of those received by Canadian forces.

3. That the government reconsider its intention of giving the war's bereaved trust fund the Canadian share of the money awarded by the British Government. The Legion said the disposal of the money should be based on consultation with many persons "wise by tradition and right are entitled to a share."

4. That the Dominion government take the initiative in establishing memorials for the dead of the Second World War.

'Time Gentlemen' To Come Later

LONDON, March 7.—(Reuters)—London ladies and waiters may be able to serve drinks up to 2 a.m.—two hours later than at present—as a result of a new proposal put forward by Home Secretary James Chuter Ede.

ITCH?

RELIEVED IN A JIFFY—On Money Back. Itchy skin is a common complaint. It is caused by a variety of factors, including dry skin, allergies, and skin diseases. Dr. Chase's Ointment is a powerful remedy for itchy skin.

CUTS, BURNS AND BRUISES

Dr. Chase's Ointment is a powerful remedy for cuts, burns, and bruises. It is made from natural ingredients and is safe for all ages.

THE PUBLIC SERVICE OF CANADA

REQUIRES: A REGIONAL INSURANCE OFFICER, \$1,000-\$1,500, Winnipeg. A MEDICAL PARASITOLOGIST, \$1,000-\$1,500, Ottawa. INSPECTORS OF AIRCRAFT, salaries up to \$1,000, various locations.

TECHNICIANS (ELECTRONICS), salaries up to \$1,000, various locations. For more information, please contact the Public Service of Canada.

ARCHBISHOP FOILS BURGLAR

VANCOUVER, March 7.—(CP)—Archbishop

Duke was up early today—early enough to aid in the capture of a burglar breaking into the garage at the Holy Rosary Cathedral.

Police captured Cecil R. Clifton, 28, of San Francisco, who was breaking into a car. He was charged with breaking and entering.

The Roman Catholic Prelate heard a noise at the garage, and called police.

Fifty More Clergymen Are Arrested

SOFIA, March 7.—(BUP)—A

Bulgarian government spokesman said today that Security Police have arrested as many as 50 more Protestant clergymen in addition to the 15 now awaiting sentence.

Asked about reports circulating in western Europe that 30 more clergymen had been arrested, the government spokesman said:

"They were named as being under arrest or are being questioned. It is possible they number 50. As you can see during the present trial proceedings, some of them were pastors under various names. Others were named as being involved in the spy ring."

The new sentence must be more than one third and possibly more than one half of the 130 Protestant pastors as Bulgarians are in police custody.

Carloadings Down From '48

OTTAWA, March 5.—(CP)—Car-

loadings for the week ended Feb. 26 increased to 73,224 cars, compared with 70,586 cars a week ago, but were down from the 74,422 cars a year ago, the Bureau of Statistics reported yesterday.

Grain, coal, gasoline and oil spurred the advance while slight increases were shown in sugar, livestock, building materials, pulpwood and lumber.

to talk about the charges against her or give any hint as to whether other government employees might be included in a "spy ring."

Meanwhile, the FBI laboratory in Washington has been examining the documents found in Min Copen's possession. It is expected they will be returned to New York, however, for presentation to the Grand Jury as evidence.

Government attorneys expected that the case against the two will be completed within a few days, permitting the Grand Jury to return indictments by the end of the week.

DIPLOMATIC IMMUNITY

Russian representatives reportedly saw Gubichew Saturday night and assured him that their government was doing everything in its power to obtain his release under diplomatic immunity.

However, the Russian has been suspended from his United Nations job as adviser on construction for the UN headquarters and UN legal authorities have insisted that since Gubichew was not on official duty at the time of his arrest, he does not have diplomatic immunity.

Cattle Prices Climb In East

OTTAWA, March 5.—(CP)—

Eastern cattle markets were higher but some western markets showed lower prices this week, the Dominion Agriculture Department reported yesterday in its weekly livestock review.

Cattle exports to the United States during the week for slaughter and feeding totaled 1,700 head, mostly from Ontario. This placed the total since Jan. 1 at 12,741 head.

Exports of dairy cattle and purebred stock for the week were 1,300, making the total for the year 5,640. Calf exports were only 167 head for the week, and to date are 1,396.

Four Dangerous Prisoners Make Escape From Jail

MUSKOGEE, Mich., March 7.—

(BUP)—Four dangerous prisoners broke a hole through a wall of the Muskegon jail and escaped early today.

The men were Joe Sheldon, 34, in jail for armed robbery; Ralph McDonald, 46, a "three-time loser" who previously had been convicted of a murder; Eddie Clay Robinson, 38, charged with burglary; and Orville Harper, 29.

Security officers said the men escaped about 2 a.m. and went to the home of Harper's brother, Adrian, who refused to help the fugitives.

Paving or Pasture?

Proposal of the city commissioners to plant grass and flowers on the centre strips of Jasper and Whyte avenues simply means that these strips would continue to be the same hazardous eyesores they are at present.

The Chamber of Commerce has already demanded that these strips be paved. The same demand has come from the Alberta Motor Association.

This demand carries the weight of common sense and intelligent opinion.

In the first place, such misplaced botanical exhibits would not and could not be kept up during the summer months. They would be dried and sunburned and ugly.

And tourists would be repeating what they did last summer when parties of them stopped in amazement to take pictures of these incredible raw spots in the heart of a metropolitan city to send to the folks back home.

In the second place, Jasper and Whyte avenues are important arterial highways built for the single purpose of moving traffic as expeditiously and safely and quickly

as possible. They are neither parks nor pasture fields.

Commissioner Menzies opposes the paving of these strips because this procedure would make an uneven number of traffic lanes on Jasper avenue.

What has that got to do with it? The more traffic lanes the better. And if there is paved space to spare in the centre of the street, it will merely constitute a margin of safety.

The commissioners have already bungled the treatment of these centre strips by failing to make provision for dealing with them in the paving appropriations of \$753,447.

Because of this oversight, council has been told, some other item of paving will have to be deleted or taxpayers will have to bear the cost of another money bawl.

Tangling can be expensive. But this first mistake cannot be rectified by the commission of a second.

To make a flower garden on Jasper or Whyte would be a wicked laugh line for the city of the whole city.

That Slow Moving Section

The hope that Edmonton was fully alive to the importance of oil discoveries in the district receives no great confirmation from the speed with which the Chamber of Commerce's oil section is being organized.

Formation of this section was mentioned as long as two months or more ago. And now, at this late date, comes the measure announcement that a committee has been set up to assist in the organization of the branch.

An oil section of the Chamber should have been actively at work 15 months ago. Indeed, the very mention that oil development appeared to be in the air in this area, the Chamber could have been given great service to the community by actively interesting itself in this great new industry just as it interests itself in agriculture, manufacture and other vital activities of the community.

As a matter of fact, if the Chamber of Commerce had offered the same valuable leadership in the development of the oil

industry as it has offered in the development of agriculture and manufacture, this city may have been somewhat nearer to being the oil centre of the province today.

As it is, the new as well as the older companies are firmly entrenched in Calgary and it is going to require something special in the way of inducements to move them to Edmonton, even though Edmonton is in the heart of the greatest producing region.

The oil section of the Chamber of Commerce is late in getting started and slow in getting started.

Slowness and tardiness can still be offset by stepping up the tempo of organization and by making a point of seeing that the best available men are put to work in the section.

The oil section of the Chamber is the most important section of the Chamber not only because of the immensity of the oil picture but because a stiff fight lies ahead of those who endeavor to make the oil industry yield every possible benefit to Edmonton.

The Old Lottery Racket

Every once in a while some starry-eyed gent comes panting up with the breathless discovery that national lotteries would solve all the financial problems of Canada.

Such an optimistic fellow has views the other day in the house of commons.

This optimistic, Maurice Glinquex of Sherbrooke, Quebec, declares that national lotteries should be set to a minimum and that tax lottery tickets should be sold in the post offices as freely as postal notes.

Now such a plan always seems a measure of applause because no one loves the income tax and because everybody would like to find a way to get out of it. Moreover, there would be a certain dash and thrill in making a game out of the financial operations of the nation.

There is the fact, too, that there is nothing intrinsically immoral about lotteries. Certainly there is nothing inherently sinful about the fact when it makes lotteries involving a specified value

legal when operated for certain specified purposes.

But in restricting the magnitude of lotteries the law puts its finger on their most vital weakness.

That weakness is that when people lean too heavily upon any game of so-called chance they undergo a process of moral debilitation.

The greatest and perhaps the only inquiry in national lotteries is that they inculcate the notion of something for nothing.

And there is no such thing as something for nothing in all this world. If anyone will make a study of those nations where lotteries are a national institution, he will find the minimum of initiative, enterprise and self-reliance.

The idea of something for nothing is the most destructive force that can be leveled against an economic system based on production.

Mexicans Closer To United States

SCOTT
Maurice, Mexico—This is the last of these items here. In one respect it is to make a correction. I wrote earlier, in the course of some preliminary inquiries, that we've seen nothing in Mexico to compare with the middle class of life as we know it in Canada. Last night we found it. It was like being back in our own Suburbia.

We were invited to dinner at the home of Ramon Santella (which you pronounce "Santa-eh-ah") who owns a very nice home and appliances and who happens also to be Mexico's international representative in the Loom Club.

Ramon drives a 1936 Studebaker, wears pin-stripe suits with his lions button in the lapel and except for what must be a deep tan, looks like any short, slightly stout and perhaps inward-looking business man.

The Santella home is small, certainly less affluent than the homes of some of the other businessmen in the city, but all the comforts are there and, almost without exception, they're made in U.S.A.

The Santella has a record player and a library of "discs" in the range of the most obviously expensive. They read American best-sellers published in Spanish in Argentina. They have a Canadian whisky, Martell's Cognac or (for such courses as we've had) the whisky.

The way to drink Tequila, which looks like gin and these things you never hear before is to place a small amount of salt on the back of the tongue, draw a half line in the right, drink the Tequila with a gulp, then the salt and you're off into the line. This cuts down life of a cheap snort or snorter where the verses go on forever, but contains nothing worth listening to or constructive.

A little just criticism is admitted. But the tone of these letters across the major, and commissioners of the City of Edmonton, together with their total incompetence to manage our municipal affairs.

To counteract this opinion which is a decided minority, we only have to remember that the majority of the people of the City of Edmonton are in the above mentioned officials in office by democratic vote.

This is a free country, and the editors on down to the majority of the people, are to say the least, unenterprising and in no way progressive. Very little of the kind is given in all this criticism, but the majority of the people of the City of Edmonton are in the above mentioned officials in office by democratic vote.

Letters to the Editor

Thanks To Red Cross

Editor, Bulletin—I wish to thank the Blood Donors Clinic of the Edmonton Branch, Canadian Red Cross, for the numerous blood transfusions which they supplied for me during my recent illness in hospital in Edmonton and Peace River.

To the unknown donors of the transfusions, thank you.

Our good Mayor deserves a lot of credit for putting the interest and the future of this city first, and self interest and politics second.

H. ANDERSON
1102 7th Street.

ON THE RECORD By Dorothy Thompson

Communists Everywhere Obey Moscow Slavishly

There is, of course, a direct connection between the Soviet Union and its satellites in France, Yugoslavia in Italy, Poland in Great Britain, the German Communists in the Soviet Union and the trial of eleven Communist leaders in New York.

All belong to the same international party; all are obedient slaves and all are participants in a universal grand strategy.

Thanks to the leader of the European Communists, that strategy has become a matter of immediate metropolitan record—though the Communists in Communist place and conception held unswerving from the Bolshevik revolution in Russia to the present day.

In the global concept every Communist in the world is part of every section of the world party in every country, but the international line is the same.

Wars Are Inevitable
In that concept, international wars are inevitable until all the world becomes Bolshevik.

All wars, except those in which Russia is engaged, are "imperial wars."

In all international wars, the Russian Union is the "center point" of the "definitive" consequences of the fighting.

For instance, the Soviet Union attacks another nation without warning, as in 1936, the action is not aggressive, but is merely preventive, defensive foreign.

Conversely, however, either attacks the Soviet Union or resists an attack by the Soviet Union is an "imperial war" an imperial aggression.

Should we occur between the Soviet Union and its satellites in France, Yugoslavia in Italy, Poland in Great Britain, the German Communists in the Soviet Union and the trial of eleven Communist leaders in New York.

Looking Backward

1889-90 Years Ago
Ottawa citizens are asking for the incorporation of the Manitoba railway and canal company.

1919-30 Years Ago
S. H. Smith was elected president of the local Real Estate Institute.

1899-50 Years Ago
Commissioners have been appointed to negotiate a treaty with Indians of the Athabasca district.

1909-40 Years Ago
Lands of Calgary and Edmonton Land Company have been declared as public land.

Today's Text
"I will cover the anniversary of the printed to cover and will lay in the laughtiness of the territory—January 12, 1911."

From Today's News
By Dwight Mackenzie
wards the Atlantic pact. Diplomatic observers in London are saying as indicating that Denmark has finally decided to play ball with the West.

It would be going too far to say that these barbed observations have lost their force of untoward consequences. But they are demonstrating that the world is moving with aggression if it should develop.

The significance of this lift in morale is seen in the attitude of the world's press. It is the highly controversial North Atlantic Alliance. Both these countries have been warned to observe the Atlantic pact and have been urged by the United States, Britain, France, Belgium, The Netherlands and Luxembourg.

Yet Norway has rejected the offer of a non-aggression pact and has joined the Washington negotiations for the Atlantic pact.

Meantime Danish Foreign Minister Rasmussen is scheduled to leave for Washington tomorrow to seek the best possible basis for Denmark's final attitude to the Atlantic pact.

This small island republic, Finland, is in a delicate position. It is a small island republic, Finland, is in a delicate position. It is a small island republic, Finland, is in a delicate position.

An Atlantic pact would be a disaster for Finland. It is a small island republic, Finland, is in a delicate position. It is a small island republic, Finland, is in a delicate position.

Smiles

If the quality and nature of restaurant fare varies in different parts of the country, so does the language in which it is characterized.

In a small roadside cafe, the menu is in English and the language in which it is characterized.

An Atlantic pact would be a disaster for Finland. It is a small island republic, Finland, is in a delicate position. It is a small island republic, Finland, is in a delicate position.

EDHA Puts Chill On Leafian Beef

EA's won a committee-room battle over Ted Allard's Maple Leafs last night.

Gordon Self, junior loop director, announced last evening that Allard's protest over third EAC-Leaf City Junior Hockey league playoff game, won by EA's, has been thrown out.

Denials handed down by the EDHA executive, came after the referees' report was thoroughly studied. Officials at the game were Johnny Collins and John Melnyk.

Denials came when Doug Leach, EA's winger, scored the clinching tally to give the club victory in the game. The referees' report had given the club a 3-2 victory, Allard claimed.

Allard didn't have much to say last Thursday following the fourth game. Actually there was little for Allard to say. Eddie Cate Cushman had taken care of that by whipping the Leafs 4-2 to go two games up in the championship series.

Next game, if needed, will be played Wednesday evening, also at the Arena.

Whitehorse Out Of Puck Race

VANCOUVER, March 7.—(CP)—Naimino Clippers and Kimberley Legionaires will meet in the Island City Wednesday night to open the senior "B" hockey championship in British Columbia.

Clippers Saturday took their best-of-three series in two straight games to win the championship. The first game was a 4-1 victory over the first Yukon team in 47 minutes to enter organized hockey.

In the second cup game against the Kimberley Legion, 3-2, fans saw the Kootenai champion, Legionaires, defeat the Clippers 3-2 in the deciding game of the best-of-three series.

Sid Smith Ties AHL Scoring Mark

PITTSBURGH, March 7.—(CP)—Sid Smith, Pittsburgh center, scored his 40th and 500th goals in the American Hockey League Saturday night as the Hornets defeated Buffalo 6-1.

Smith tied the record set by Cal Lumbo of Providence Reds last year for the most goals scored by an AHL player in one season.

Frank Mathers, Billy Mays, Bob Devere and Bill Davidson of the Pittsburgh club, Doug Lewis of the Hornets.

Archie Allen Again Heads Football Group

Archie Allen was re-elected president of the Edmonton Amateur Football association for his fourth term at the annual meeting held at the Commodore hotel last night.

Other officers named to the new slate were: Ken Smith, first vice-president; Bill Gordon, second vice-president; Ralph Allen, third vice-president; and Paul Stordy, president of football.

Stordy was elected treasurer-manager. As well, a committee of three was named to go on the move, indicating that the forthcoming season will be every bit as successful as last.

Among topics discussed was the annual Alberta Football association meeting, to be held in Calgary on March 25. It is hoped that the forthcoming season will be every bit as successful as last.

Representatives of 11 city clubs are on the move, indicating that the forthcoming season will be every bit as successful as last.

ANDY CLOVECHOK

Sinclair's Mixed Rink Cops Civil Primary

Curling isn't entirely a man's game. The Edmonton Curling club at the week-end in a mixed rink, skipped by Don Sinclair, won the primary event in the Provincial City Services annual bonspiel.

Don Sinclair, skipper of the club, led the team to victory over the second-place team, skipped by Don Sinclair.

The team, consisting of Don Sinclair, skipper, and three other players, won the primary event in the Provincial City Services annual bonspiel.

Calgary Here For First Semi-Final Tilt Tuesday

5 CANADIAN HORSES NOMINATED FOR DERBY

LOUISVILLE, Ky., March 7.—(AP)—A wide-open, well-balanced Kentucky Derby took form Saturday as Col. Matt Winn announced the names of 113 nominees, including five Canadian horses for the annual March 7 race at Churchill Downs.

In the absence of a potential Citation to scare away the second stringers, the 75th running of the classic is almost sure to come up with one of its old-fashioned big fields.

Nominees announced included such freshmen swiftness as Blue Peter, Ocean Drive, Mr. Bush, Capot, Olympia, Old Rocker and Alaska Day.

The Canadian entry was the largest in many years. Two stakes winners last year—Arise and Blue Regent—were named by W. J. Addison, Illuminable, owner of the Canadian entries.

The partnership of Ness and Kretschman nominated Polly Lass. Four owners mentioned are from Ontario. F. Ronald Graham of Vancouver named Rathore, an imported horse.

Universities In Repeat Saw-Off

SASKATOON, March 7.—(CP)—For the second time in two years the Universities of Alberta and Saskatchewan have been unable to decide a winner in the western Canadian curling championship.

The teams played a draw on Saturday night, the two universities punched and grunted to three victories each in the two divisions.

As a result the Neilson tournament, which was supposed to be a knockout, was turned into a two-game series.

Clovechok, Mates Whip Leafs 7-1 to Set Stage

Western Canada Hockey league preliminaries are done with Tuesday night Flyers take on Calgary Stampede at the Arena in the first game of a best-of-five semi-final series.

At the same time Regina Caps, league leaders practically all season, will play host to Lehigh Maple Leafs in the opening clash of a similar series.

As the curtain came down on the regular schedule Saturday Flyers dumped Maple Leafs 7-1 before a sell-out arena gathering. The contest saw "Handy Andy" Clovechok, local savior, score two goals to put his total for the campaign at 41.

After the game, Clovechok was in the dressing room to receive his share of the campaign honors in this department.

Duke Grant, Calgary, and Al McDougall, Regina, a pair of top scorers, finished in the top-10 list of 50 players per game.

Despite the fact that little or nothing was at stake in the game, the pair of points and the opportunity for Clovechok to win and get into the playoffs, Saturday's engagement was waged along spirited lines. Total of 14 penalties, split right down the middle—seven in each faction—was the only blot on the record.

The combats, who had been "eyeing" one another like a pair of prizefighters, split right down the middle—seven in each faction—was the only blot on the record.

Manitoba Favored In Consols

HAMILTON, March 7.—(CP)—Unless somebody kicks over the maple bucket, Ken Watson's four-rink team will win the four-rink championship which started here today.

This was the theme of pre-tournament gossip yesterday as the two teams bested earlier settled down after a week-end of shelling of consols.

The four-time Manitoba champion has been installed as favorite to win the crown, last year by the Trail, B.C. rink skipped by Theo Maher.

Experts who have watched the tournament for years can't say any of the 12 provincial rinks are two from Ontario—going Watson a rough time when play starts Monday afternoon.

"There isn't a rink in this pool that has an even chance of ending in front of Watson and his boys and it would be a big surprise if any of the rinks were to do so at the Thursday night wind-up," one expert said.

Stewart Beattie, skipper of Blackie, which opened Gordon Walker of Edmonton in the provincial play-off in Calgary last week-end.

Beattie was scheduled to open his afternoon session Friday at the Victoria rink, but was unable to do so because of a cold.

Samis Retires After Taking Shuttle Crown

MONTREAL, March 7.—(CP)—Just three hours after he captured the Canadian Badminton singles crown here Saturday for the third time, 25-year-old Johnny Samis of Vancouver announced his retirement from tournament play.

The handsome, three-time winner of the men's singles title led a team of Vancouver players, who swept four of five Dominion championships, to victory in the 1948 tournament, leaving Toronto with the only 100 per cent record in the event.

He said that he was "growing weary" of the game because of its early hours in their early twenties.

Navy Denies Ship Flareup Serious

Incident On Athabaskan Explained In Statement

OTTAWA, March 7.—(CP)—Naval headquarters, in an official statement, last night cleared the mystery surrounding an incident which occurred aboard the destroyer Athabaskan eight days ago.

The incident occurred, the statement said, when a group of men instead of carrying out an order to work requested to see the captain of the ship.

Cmdr. M. A. Medland of Toronto, 38-year-old ship commander, saw the group, "not as captain of the ship but as the most senior officer available to offer advice."

SAID INSIGNIFICANT

The statement added: "So insignificant was the incident that no man involved will be charged with a more serious offence than slackness."

Along with other Canadian ships, the Athabaskan was en route to the Caribbean for maneuvers when the incident broke out in Manzanilla Bay on Mexico's Pacific coast.

Prompted by publication in a Vancouver paper of an anonymous letter, purported to have been written by a member of the crew and claiming that a two-hour mutiny occurred aboard the vessel, naval headquarters released the following statement:

1. No senior rating was involved, no leading seaman, petty officer or chief petty officer was concerned.

2. A mutiny, although a group of 140 were ordered to take fuel aboard ship. They asked to see the captain.

3. The incident was described by the senior officer of the task force, Capt. James Lindsay, commander of HMCS Ontario as a "flash affair." He fully endorsed the action taken.

From unofficial sources it was learned that the incident grew out of two things.

1. The men involved objected to getting up for breakfast too early in the morning.

2. They objected to being told they could not smoke while refueling the ship.

SAID NO MUTINY

The anonymous letter, dated Feb. 27, said members of the crew "mutinied and sealed themselves in the forward upper mess-decks for approximately two hours."

Naval headquarters said that so far as could be learned, this was entirely false.

However, naval spokesmen could not say what was involved when the letter writer said there were six reasons for what he termed the "mutiny."

He listed two: "Most striking of the demands made by the executive officer was that the executive officer be removed from the ship. A second request was that Canadian money be accepted by the ship's captain."

The executive officer, Lt. Cmdr. C. R. Parker, 34, won the Distinguished Service Cross for service in landing craft at the 1944 invasion of France.

COMPETENT OFFICER

He was described as a highly competent officer with pertinent qualifications for his duties.

However, on the Atlantic money angle, a spokesman said Canadian money was always accepted for ship purchases. But there may have been circumstances which made the acceptance of Canadian money in Mexican waters temporarily impossible.

Handbags, The Bay Street Floor

CALF OPERA PUMP in navy blue with big heels. Sizes 5 to 9. Widths AAA to B. Pair . . . \$10

Women's Shoes, The Bay Street Floor

PETITPOINTE STRAW HAT in navy with Harlequin blue trim. Little head-hugger style. Each . . . 14.95

Milinery, The Bay Second Floor

Hudson's Bay Company.

INCORPORATED 21st MAY 1870.

Tenant Group Will Expand

VANCOUVER, March 7.—(CP)—The Vancouver Tenant's Defence League is seeking a democratic charter to enable it to organize across the Dominion.

Ken Richardson, secretary, said Saturday the league has 900 members here, signed up since Feb. 2, when a provincial charter was granted.

The non-political league is pledged to fight for the retention of "rapidly disappearing rent control and the construction of low-rent housing."

"One of our main functions is to prevent tenants from being sold out and evicted," said Mr. Richardson.

He said hundreds of families in Vancouver have been evicted.

British Makes First Plutonium At Harwell

LONDON, March 7.—(AP)—Britain has produced her first plutonium, the rare substance used in creating atomic power.

The Ministry of Supply announced the news yesterday and called it "one of the most important steps forward in the country's atomic energy program."

The plutonium was produced at Britain's atomic energy research establishment at Harwell.

Plutonium, which can be split to produce great energy, was extracted from a uranium slag which had been irradiated for several months in "Glen," the low-power atomic pile, the Ministry of Supply said.

\$100,000 Loss In East Fire

HAMILTON, March 7.—(CP)—A \$100,000 fire in the heart of the business district last night damaged bowling alleys and three stores in a five-story building.

Hardest damage was in the Coughlin Bowling Alley, owned by Lou Gold.

Also damaged were Nick Connor's tailor shop, Madame Skenker's women's wear and the Hamilton building material store office.

B.C. Growers Fear Loss of Berry Market

VICTORIA, B.C., March 7.—(CP)—Fruit growers fear that legislation now before Washington state legislature will kill the entire United States market for British Columbia berries of all species.

Bill 174 already has passed second reading by a vote of 75 to 14 in the lower house and has been approved by the state senate committee on agriculture, thus averting final reading.

Section one states that the director of agriculture shall interview any and all shipments of fresh berries originating in any foreign country.

HAMPERING CLAUSES

Section two provides "that berries shall only be shipped in new and unused containers of such a nature as to facilitate inspection by the state department of agriculture."

Other sections contain provisions for "hampering" license fees and "excessive" surety bond deposit requirements for buyers of B.C. berries in Washington.

W. C. Kewey, manager of Vancouver Island Fruit Growers' Exchange, stated last night that lower mainland growers will be hit harder than Vancouver Island berrymen.

Island berries are chilled here and sent to Seattle for cold storage, but those on the mainland are required to Seattle by express trucks.

Most B.C. berries are sold in the eastern states, very few are sold in the west, he said.

The restrictions in the bill, however, really constitute an embargo as wide powers over handling and inspection would interfere with the use of cold storage facilities vital in successful shipping.

Plans Laid To Continue Ballet

TORONTO, March 7.—(CP)—To stage future ballet festivals similar to the one just ended here, former officers of Ballet Association today set up an organization and chose a temporary executive.

Representatives of ballet groups in British Columbia, Manitoba, Ontario and Quebec named the temporary executive: Mary Milburn and Beth Lockhart, Vancouver; David Yedlowsky, Betty Farrelly and Gertrude Lloyd, Winnipeg; and Mrs. M. Bern Volke, Toronto.

London is to have a planetarium. It will be the first to be built in the British Commonwealth. The plan has been announced by the minister of education, Mr. Tomlinson. He stated that it will be constructed at the Science Museum. It is estimated that it will take about five years to complete.

BACCALAUREATE SERMON DELIVERED

Impressive ceremony brought 125 University of Alberta students of Roman Catholic faith to St. Joseph's College Chapel yesterday for annual pre-graduation exercises. In caps and gowns, the scholars heard St. Joseph's seminary teacher, Rev. A. J. McDonald, JCD, deliver the baccalaureate sermon.

Conspiracy for Evil Seen In Realm of Education

Conspiracy for evil during the current struggle between totalitarianism and Christianity is most apparent in the realm of education, Rev. A. J. McDonald, JCD, told St. Joseph's College graduates at pre-graduation exercises yesterday.

Father McDonald addressed 125 Roman Catholic students of the University of Alberta and their relatives and friends in St. Joseph's College chapel.

ANNUAL CEREMONY
Procession of graduates and the baccalaureate sermon, followed by the benediction of the blessed Sacrament, is a solemn annual ceremony.

U.S. Army Generals Start Alaska Road Inspection

Two United States Army generals started out from Edmonton on the first leg of a 2,000 mile automobile inspection tour of the Alaska highway to its terminus at Fairbanks.

Major-General S. L. Scott, chief of U.S. ground forces in Alaska, and Brigadier-General Paul Young, chief assistant to the head of Army Transport at Washington, D.C., will conduct extensive investigation of conditions along the northern link.

A report will be submitted to Washington following their tour which is expected to last a week.

Drunk Driving Brings 7 Days
For driving an automobile while drunk, an elderly miner from Cardiff, Alta., was sentenced to seven days in jail and had his driver's licence suspended for three months when he appeared in police court Saturday.

John Garrick pleaded guilty to being under the influence of alcohol when he drove his car across the lawn and into some fruit trees of a Riverside home.

Major-General Scott said that more than 1,000 tons of materials were now going over the Alaska highway every month by commercial lines.

"Improvement of the Alaska highway directly affects the strength of our northern defenses," he asserted.

A report will be submitted to Washington following their tour which is expected to last a week.

At a press conference yesterday afternoon, Maj.-Gen. Scott said that while progress in northern transportation and defenses was continuing at a good pace he would like to see more progress along lines of highway improvement.

"We must stress the need for a well-surfaced highway all the way from Edmonton through to Alaska," he added.

GLENORA SKATERS ARE GIVEN AWARDS

Winners were announced and trophies presented for Glenora Club figure skating competitions at McKay, Jan. 24, last. Betty Ann Clement, and Mary Stack, Nancy Armstrong and Jean Armstrong, intermediate pairs, Lois Grady and Pat Harvey, senior dance, Arlene Jones and Bill Warkham, Barbara Park and Ken Park.

Senior ladies champion, winner of senior competition and U.S. Huff trophy is Barbara Park. Senior pairs won the Mills Rose trophy for highest marks in school figures, presented by Miss Dora Mills.

The Progress Cup was received by Barbara Park.

Sensible Planning Chance Lost Here

By Lloyd Jenkins
Not simply the Civic Auditorium site has been lost, but the entire Civic Centre, as well as the opportunity for any sensible town planning, in the opinion of S. T. Lawrie, for nine years chairman of the City of Edmonton Zoning Appeal Board.

Mr. Lawrie was the first of the citizens acting in a voluntary capacity as advisers on town planning to resign in protest over City Hall's decision.

His resignation on June 11, 1948, was followed by the resignation of Council members in the City of Edmonton Zoning Appeal Board.

When Prof. Cecil Burgess resigned as chairman of the Town Planning Commission he mentioned the resignation of Council as a basis of contention.

Mayor Harry Ainlay and the City Commissioners were incorrect when they said no bylaw had ever been passed approving the town planning scheme, Mr. Lawrie asserted.

He produced a copy of the Zoning Bylaw No. 28, 1933, passed on October 10 that year, and a "District Map" (which was appended to the bylaw) to prove his point.

He said the bylaw drew up the building zones for each district of the city, this was certainly a "plan" for future development.

PROPER PROCEDURE
Proper procedure for the city was to bring the Glenora Hotel proposal before the Appeal Board, asserted Mr. Lawrie.

"If that had come before the board they would never be on that site," he said in terminating City Hall's actions "very irregularly."

The whole matter was rushed through in two days before any connection with town planning had appeared opportunity of thinking it over.

Now the Mayor and Commissioners were trying to say the City Council did not include the area between 99 and 100 streets, and that the Glenora Hotel was not included in the Council Chambers showing the western boundary as 99 street.

From the outset the Town Planning Commission and the Appeal Board had shown on the "District Map" approved by Council.

MUST GIVE UP IDEA
Locating the Glenora Hotel and probably the federal building in that area, meant Edmonton could have won a big prize in Mr. Lawrie's opinion.

"What's the use of having town planning bodies at all if that is the way the things are going to be done?" he asked.

**Farm Leader Protests
Loss of U.K. Market**

Serious concern over Canada's loss of the British market for bacon, eggs and other foodstuffs is expressed today by Hugh W. Allen, president of Alberta Livestock Cooperative.

President Allen says that farmers are amazed at the loss of the market from the Dominion Government.

He stated: "It is not enough to repeat the old story about the shortage of funds, the dollars are gone, but the dollar hasn't stopped buying foodstuffs—specifically—bacon, eggs and so forth, she is simply buying them from other people."

The ALC president says that British is paying for Danish and Polish farm products with steel, textiles and many other manufactured goods in short supply in Canada.

He suggests that barrier is the answer for Canada, the Dominion should get on a better basis with Britain immediately.

AP Correspondent Barred From Finland
HELSINKI, March 7.—(AP)—The Finnish government today Saturday night that Gustav Svensson, Associated Press staff writer from Stockholm, would not be permitted to enter Finland in the future.

The government took exception to a story he wrote about the possibility Russia might demand more bases on Finnish soil and said considered the article to be harmful to Finnish foreign policy.

Research cost in Canada has jumped from \$500,000 in 1946 until today when it involves close to \$1,000,000 annually.

Protest Tonight In Canada Road

Many Delegates to Be At Memorial Hall

Protest against the apparent haphazard selection of the Trans-Canada Highway route will be made tonight at a mass meeting to be held in the Memorial Hall.

The meeting has been called by the Edmonton office of the Trans-Canada Highway Association (TCA) and will be held at 8 p.m. in the Memorial Hall.

Delegates from almost every town and village from the British Columbia in Saskatchewan borders have indicated intention of attending.

Representatives of many city organizations also are attending.

CHAMBER SUPPORT
A. L. Burrows, president, Edmonton Chamber of Commerce, indicated support of that body would be given the organization in its fight to have decision on route made on the basis of facts rather than political expediency.

Mass meeting was called by Mayor Harry Ainlay, president of the Trans-Canada Highway Association, following announcement that British Columbia favored the Kicking Horse Pass route and the failure of the provincial-ministry conference to agree on a possible route of a national highway commission to examine all possible routes before final decision was made.

SEVEN RESOLUTIONS
Seven resolutions will be submitted to the meeting. They deal with appointment of the highway commission, and focus attention on the national advantage of the Trans-Canada Highway.

Meeting will be under chairmanship of J. A. Christiansen, president of the Edmonton branch of the National Guard.

Japan Crash Kills Six
TOKYO, March 7.—(AP)—Six airmen were killed and two others were injured critically Saturday in the crash of a United States transport plane shortly after it took off from Naha base on Okinawa.

Meeting Tonight
Regular meeting of the Edmonton branch of the National Guard will be held tonight at 8 p.m. in the Library.

**Varsity Student Theatre
Off to Brilliant Start**

A little bit of Edmonton drama history was made Friday night.

The new student theatre of the University of Alberta department of fine arts drama section was opened in the campus theatre last night in the history of the 42-year-old university.

The play was "The Night of the Hunter," beginning at 8:30 p.m.

The four plays were all directed by Prof. Orchard and Mr. Stuart. Three were presented by the University Provincial Players, a group of students which annually tours the province in summer, giving rural and small-town audiences an opportunity to see real theatre.

The fourth play was "The Night of the Hunter," which was presented by the Varsity Drama Society.

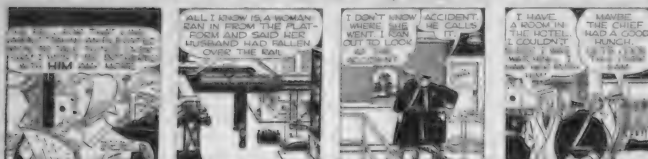

All four plays have been entered in the provincial regional drama festival in Calgary which will be held next week.

Two of the plays were written by Edith Piaf, Brecht's "From Good to Bad" and "The White Man and The Mountain," which takes place in the Southern Alberta of 1875, written by Prof. Orchard.

TWO GROUPS HEARD
These and Cox and Box, by J. M. Morton, were presented by the Provincial Players. Surdiss Story, by J. M. Morton, was presented by the Varsity Drama Society.

rounds of the singles play,
receiving a bye in the

Another Vancouver squad, Meredith and Daryl Thompson, came through the semi-final in masterful fashion last week to emerge finalists in the doubles. They will meet the Toronto team, Jack Muir and Porter.

Although Mrs. Lovett has her singles crown, she will have a chance to redeem herself in women's doubles. Mrs. Lovett, Mrs. Jean Bardsley will be powerful Toronto combination. Mrs. J. Roberts and Joan Healy are in this event.

In the mixed doubles the Vancouver team of Jean Bardsley and Daryl Thompson are given the edge over Jack Muir and Mrs. J. Roberts, of the Carlton club.

Bowlers Give England Start In Final Test

PORT ELIZABETH, Africa, March 5.—(Reuters).—Alec Gladwin and Alec today gave England a fine start in the fifth and final cricket match, dismissing Eric Rowan and Ken Viljoen with only 13 runs.

Bruce Mitchell and the African captain, Dudley N. checked the collapse by chasing the score to 63 for two by lunch interval.

England are one game up in the series.

CURTAIN TIME

More Cabbage To Be Imported Into Canada

OTTAWA, March 7.—(CP)—The government has moved to ease a shortage of cabbages in eastern Canada.

Revenue Department said Saturday that, effective March 14, cabbages may be imported into Ontario, Quebec, New Brunswick,

Importation previously had been banned under the Foreign Exchange Conservation Act. The relaxation likely will exist until do-

The United States is Canada's largest outside source for cabbages.

VAGABOND PLAYERS WILL REPRESENT B.C.

VANCOUVER, March 7.—(CP)—The Vagabond Players of New Westminster and "their distinguished presentation" of "The Glass Menagerie" will perform for British Columbia next month in the domino drama festival at Toronto.

London's Robert Speaight, the regional adjudicator, last night said the Vagabond Players distinguished themselves in capturing "the pathos and profundity of a southern family living in a world of illusion and fantasy."

The awards for individual performers went to three female actors also went to the group, which showed an entertaining polish over the four other drama clubs competing in the B.C. festival.

Parliament Hill Gives Best Show

Fighting Opposition Sparks Hottest Debates In Years

OTTAWA, March 6.—(CP)—The biggest show in Canada is currently wowing them on Parliament Hill.

For many years, parliament has been considerably less than a public attraction, but the session now being conducted in the east wing has been the most interesting since the 1870s.

It is picking them in, thanks to new faces, new scripts and a lot of shenanigans that may not be quite parliamentary but certainly are good box office.

Some of the fare being dished up in the Commons is pretty rugged. Things get so rough at one point that Speaker Gaudet Fauriol threatened to throw out the next member repeating a certain expression.

In all, say observers who have been watching parliamentary doings for a long time, this is one of the most brilliant sessions of the last half-century.

In the last week, for instance, there was at least one stormy scene daily—except for Friday when the billgongers subsided into minor sniping after getting formal spanking from the presiding officer the previous day.

The new look in Commons proceedings can be laid to several factors. First of these undoubtedly was the change in leadership of the two major parties, bringing the smooth-operating Louis St. Laurent and hard-hitting George Drew to the head of their forces.

A general pepping-up of all three parties at national conventions—the Liberals for the first time since 1918—also undoubtedly has made a big contribution to the new vibrance of the debates.

In the third place, there is the importance of a general election, which has given the house an air of expectancy, set all groups on edge and kept them jockeying for strategic positions in the house stretch to the polls.

Also, the addition of the two new ministers to the Liberal front row—Justice Minister Garon and External Affairs Minister Pearson—has helped liven things. Both have contributed to the living-up process.

But the single man most responsible for it all unquestionably is the Progressive Conservative leader. Under him, the chief opposition party has been on the offensive consistently through the session. They have pretty well managed to

12,000 MILES TO FUNERAL

ARLINGTON, Tex., March 7.—(AP)—Sounding of the last post today finished life in America for Mrs. Veronica Morgan of Sydney, Australia, who came 12,000 miles for the funeral of her husband.

Reburial services were held for Capt. Luther Morgan, who was shot down over Okinawa March 28, 1945.

Mrs. Morgan then was a resident of Arlington, but later returned to the home of her parents in Australia. She will return to Australia May 26 from Vancouver.

Three Leap As Trains Collide

PEMBROKE, Ont., March 7.—(CP)—Three persons were injured for their lives Saturday when a fast-moving eastbound Canadian National Railway freight train plowed into the rear of a CNR passenger train on the eastern outskirts of the town.

Smith Wynner, 44, of Pembroke, one of the CNR employees who made the leap from the train, suffered knee injuries as he swung free of the rear car of the standing passenger-train.

Only four per cent of the work is done by machines, the rest by men.

N.S. Seeking Coal Markets

HALIFAX, March 7.—(CP)—A current ailment in the Nova Scotia coal industry—where the Nova Scotia coal is to be sold—will be diagnosed this week at Ottawa.

During the last fortnight, several mills have worked only part time and hundreds of miners have been temporarily thrown out of work.

HAVE NO ORDERS

The reason: No orders. And the reason behind that has been given as the mild winter in the maritimes.

Railroads and other consumers had been able to get along so far this coal than they normally use during the winter months.

But there are other factors, and for more important ones, that the weather and bulging stockpiles. There is the increasing use of oil, for one thing.

For another, the war drove Nova Scotia coal out of the Quebec and Ontario markets. American coal moved in when Nova Scotia production declined and bunker demands were heavy for war shipping through Halifax.

U.S. COAL CHEAPER

American coal now can be laid down in a ton cheaper in Montreal, than Nova Scotia coal, even with the 50-per-cent freight rate subtraction. Small operators want the government to up the subvention to 50 per cent.

TRUMAN GETS DROP ON NEWSMEN

KEY WEST, Fla., March 7.—(AP)—President Truman started a two-week Florida tour yesterday in a holiday mood.

The president's plane landed at the naval air station here several minutes ahead of the press plane, which usually precedes him.

As the White House reporters landed, the president walked over to the door of the plane, perfect and just in hand, to ask AP correspondent Ernest B. Vaccaro what he thought about Malutov.

Vaccaro replied: "No comment."

Ottawa 'Walnut King' Is Dead

OTTAWA, March 7.—(CP)—Herbert H. Blanchett, 77, known as the "Walnut King," died here yesterday.

In 1937 Mr. Blanchett became convinced the black walnut tree would thrive in the hazy climate of the Ottawa valley. Eventually, he produced more than 1,000 black walnut trees as property at March Lake, Que. He also cultivated more than 25,000 trees of other descriptions, sending seeds around the world.

Canadian fishery scientists are able to determine the age of sea fish by the number of rings in the scales which are embedded in the skin.
